

The sun is shining and your NYSEG bill is lower!

Our solar farms in upstate New York produce electricity for our members, including you!

John Smith  
123 Main Street  
Anytown, NY 14830

Dear John Smith,

5/21/2020

Great News! The sun has been shining, and you probably have noticed that your utility electricity bill is lower. NYSEG has begun applying credits, called "CDG generation credits," to your account. These credits reduced your delivery charges and your supply charges.

Now Solar Farms New York is billing you for 95% of the credits or discounts you received from NYSEG, saving you 5% or \$5.36.

You can earn additional rewards by helping spread the sunshine. For every new member that enrolls by providing your Refer-a-Friend ID number **999999999**, you and your friend will each earn a \$50 Visa Gift Card.

Have questions? See the back of this letter for answers to Frequently Asked Questions. Or call me at 800-641-2140.

Kind regards,

Eliza Seaver

## FREQUENTLY ASKED QUESTIONS

### HOW CAN I BE SURE I RECEIVED MY SOLAR CREDITS ON MY NYSEG BILL?

Your solar credits will appear as “CDG Generation Credits” on your NYSEG bill. “CDG” is short for Community Distributed Generation and is another name for community solar farms. You’ll see your credits in two places: 1) the “Electricity Delivery Charges” section and 2) in either the “Electricity Supply Charges” or “Miscellaneous Charges” section. Your NYSEG bill will be reduced by the amount of solar credits on your bill.

<b>Electricity Delivery Charges</b>					
Basic service charge					15.11
Delivery charge	1192	kwh	@	0.0403	48.04
Transition charge	1192	kwh	@	0.00162966	1.94
Revenue decoupling mech	1192	kwh	@	0.000024	0.03
SBC charge	1192	kwh	@	0.005932	7.07
<b>CDG generation credit</b>	663	kwh			<b>-57.08</b>
<hr/>					
Subtotal Electricity Delivery					\$15.11
<hr/>					
<b>Electricity Supply Charges</b>					
Supply charge	1192	kwh	@	0.03578285	42.65
Merchant function charge - Oct	635	kwh	@	0.002501	1.59
Merchant function charge - Nov	557	kwh	@	0.002386	1.33
<b>CDG generation credit</b>	529	kwh			<b>-45.57</b>
<hr/>					
Subtotal Electricity Supply					0.00

### HOW ARE MY SAVINGS CALCULATED?

Each month NYSEG will apply solar credits based on your monthly usage. Solar Farms New York then bills you at your guaranteed discount for the value of the solar credits you received.

### AM I BEING DOUBLED-BILLED?

Although you are receiving two separate bills, your NYSEG bill reduces your electricity costs by the amount of CDG credits you receive, and Solar Farms New York bills for the credits at a reduced rate. In other words, you are paying Solar Farms New York LESS than you would otherwise pay NYSEG.

### CAN I SET UP AUTO-PAY ON MY SOLAR FARMS NEW YORK BILL?

Yes, it’s easy! Call us at 800-641-2140 and we'll set your account up for Direct Debit from your bank account, so you won't need to remember payment dates. You'll still receive a confirmation in the mail for your records. Plus, as an extra bonus, you'll also receive a \$25 credit on your next statement.

### WHAT IF I FORGET TO PAY MY BILL?

No worries. Simply call, and we’ll assist you.

### WHY DO I ONLY SEE PART OF MY PROMOTIONAL CREDIT ON MY SOLAR FARMS NEW YORK BILL?

Sometimes your promotional credit will exceed your entire payment due to us for that month. If this happens, you will see the remaining dollar credit on your next bill from Solar Farms New York.

### WHY AM I RECEIVING MY SOLAR FARMS NEW YORK BILL NOW INSTEAD OF WITH MY NYSEG BILL?

As a community solar program, we rely on NYSEG reporting your usage and solar credits received to produce our bill. Your Solar Farms New York bill will be a few weeks behind your NYSEG bill. If you compare your Solar Farms New York bill against the related NYSEG bill, your solar credits will match up, with your guaranteed savings applied. We only bill for solar credits you have already received through NYSEG.
